Exhibitor Introduction	AXT is a material science company that develops and manufactures high-performance compound and single element semiconductor wafer substrates comprising indium phosphide (InP), gallium arsenide (GaAs) and germanium (Ge). AXT's worldwide headquarters are in Fremont, California and includes sales, administration and customer service functions. AXT's subsidiary in China ("Tongmei") has similar functions as well as manufacturing facilities to produce wafer substrates. In addition, as part of the supply chain strategy, AXT, Tongmei and Tongmei subsidiaries collectively have partial ownership in ten companies in China producing raw materials.	
Exhibit Product	Wafers
