

ICMOVPE XXII

July 12 (Sun.) – 17 (Fri.), 2026

ICC JEJU, Jeju Island, Korea

Name of Company	Dockweiler Chemicals GmbH	Company Logo
Address	Emil-von-Behring-Strasse 76, 35041 Marburg	
President	Jörg Koch	
Website	http://www.dockchemicals.com/	
E-mail	info@dockchemicals.com	
Tel	+49 642139 6380	
Fax	+49 642139 6381	
Exhibitor Introduction	Dock is a trusted provider of metal-organic chemistry solutions, with a history spanning over 30 years. We specialize in serving the III/V semiconductor market, as well as addressing the demands of the CVD, ALD, and MOVPE industries. We offer a comprehensive range of precursors essential for these applications, packaging tailored to your specific needs, and a full range of bubbler services, including cleaning, maintenance, and transfilling of larger batches for our customers worldwide. In addition to product supply, we are a science-driven company offering custom synthesis, molecule scaling, and purification process development. Adhering to stringent quality standards, we utilize various methods, such as ICP-AES, ICP-MS, H-NMR, and GC, for quality control. Dock holds ISO 9001 quality management certification, demonstrating our commitment to delivering products of the highest quality. Our ISO 14001 environmental management certification reflects our dedication to sustainable business practices. In summary, Dock is your trusted partner for precursor chemistry solutions, providing the highest quality products and services to support the evolving requirements of the semiconductor industry.	
Exhibit Product	High-purity metal organics such as TEB, TMAI, TMGa, TEGa, TBP, TBAs, TMSb, TESb, TMBi dopants, liquid Scandium and Yttrium precursors and many more
